PERSONAL PROJECTS

Portfolio Website | *HTML/CSS/JS, React.js*

Demo | GitHub

- Created a dynamic portfolio website showcasing professional background, experience, and project portfolio using React.js framework
- Utilized Web3Forms for contact form functionality, and integrated react-icons for enhanced webpage iconography
- Designed an intuitive, minimalist interface focused on seamless information accessibility and effortless user engagement, fostering an easy-to-navigate experience

Car Maintenance Tracker | *HTML/CSS/JS, React.js, Firebase*

Demo | GitHub

- Developed a comprehensive car maintenance tracking website using React and Firebase, enabling users to securely log in, add cars, and track maintenance records for each vehicle
- Integrated Firebase for user authentication and real-time database management, ensuring secure login functionality and seamless storage of car and maintenance data
- Designed an intuitive interface that displays personalized upcoming maintenance reminders for each car, enhancing user engagement and facilitating proactive vehicle care

Youtube to Mp3 Converter | *HTML/CSS/JS, Node.js*

Demo | GitHub

- Developed a full-stack application dedicated to converting YouTube videos into MP3 files through the utilization of unique YouTube IDs
- Used a YouTube to MP3 API to extract essential video information linked to the provided YouTube ID and generated downloadable MP3 files
- Utilized HTML, CSS, and JavaScript for the front-end, combined with Node.js for a simple back-end functionality
- Designed and implemented an intuitive and user-friendly interface, allowing the accessibility and simplicity of the conversions

Expense Tracker | *HTML/CSS/JS, React.js*

Demo | [GitHub](#)

- Built an expense tracking website enabling users to efficiently monitor total income, expenses, and balances while incorporating a visually informative donut chart
- Crafted an intuitive and visually appealing interface, enhancing user accessibility and comprehension of financial information for seamless navigation and understanding

CLIENT PROJECTS

IO Catering | *HTML/CSS/JS*

Demo | [GitHub](#)

- Developed an engaging website to showcase restaurant information, featuring a comprehensive menu and detailed descriptions of offered dishes
- Implemented smooth scroll animations and fade-in effects using JavaScript, and integrated Web3Forms API for an efficient and user-friendly contact form
- Designed the website with a focus on intuitive navigation and appealing aesthetics, ensuring easy access to information and enhancing the overall user experience

Skinbarbyash | *HTML/CSS/JS*

Demo | [GitHub](#)

- Developed a comprehensive website for a makeup artist, featuring dedicated pages for About, Treatments, Services, and an online Shop
- Implemented dynamic fade animations using JavaScript and integrated Web3Forms API to create a seamless contact form
- Ensured an aesthetically pleasing and user-friendly design, facilitating easy navigation and enhancing the overall user experience
